BOEING

LOCKHEED MARTIN

Traditional Approach: Custom vs. COTS

CUSTOM

*Higher R&D Costs
Lower Support Costs
Longer Refresh Cycles
Integrated Logistics Support
Tighter Program Management*

COTS

*Lower R&D Costs
Higher Support Costs
Shorter Refresh Cycles
Separate Logistics Support
Complex Program Management*

Source: DODD 5000.1, NAVSEAINST 9083.1: "Commercial Off The Shelf (COTS) Policy"

Both approaches are characterized by compromise, tradeoffs and risk

NAI: The Best of Both Worlds

CUSTOM

COTS

NAI

*Faster Time-to-Mission
Lower Engineered Costs
Longer Lifecycles*

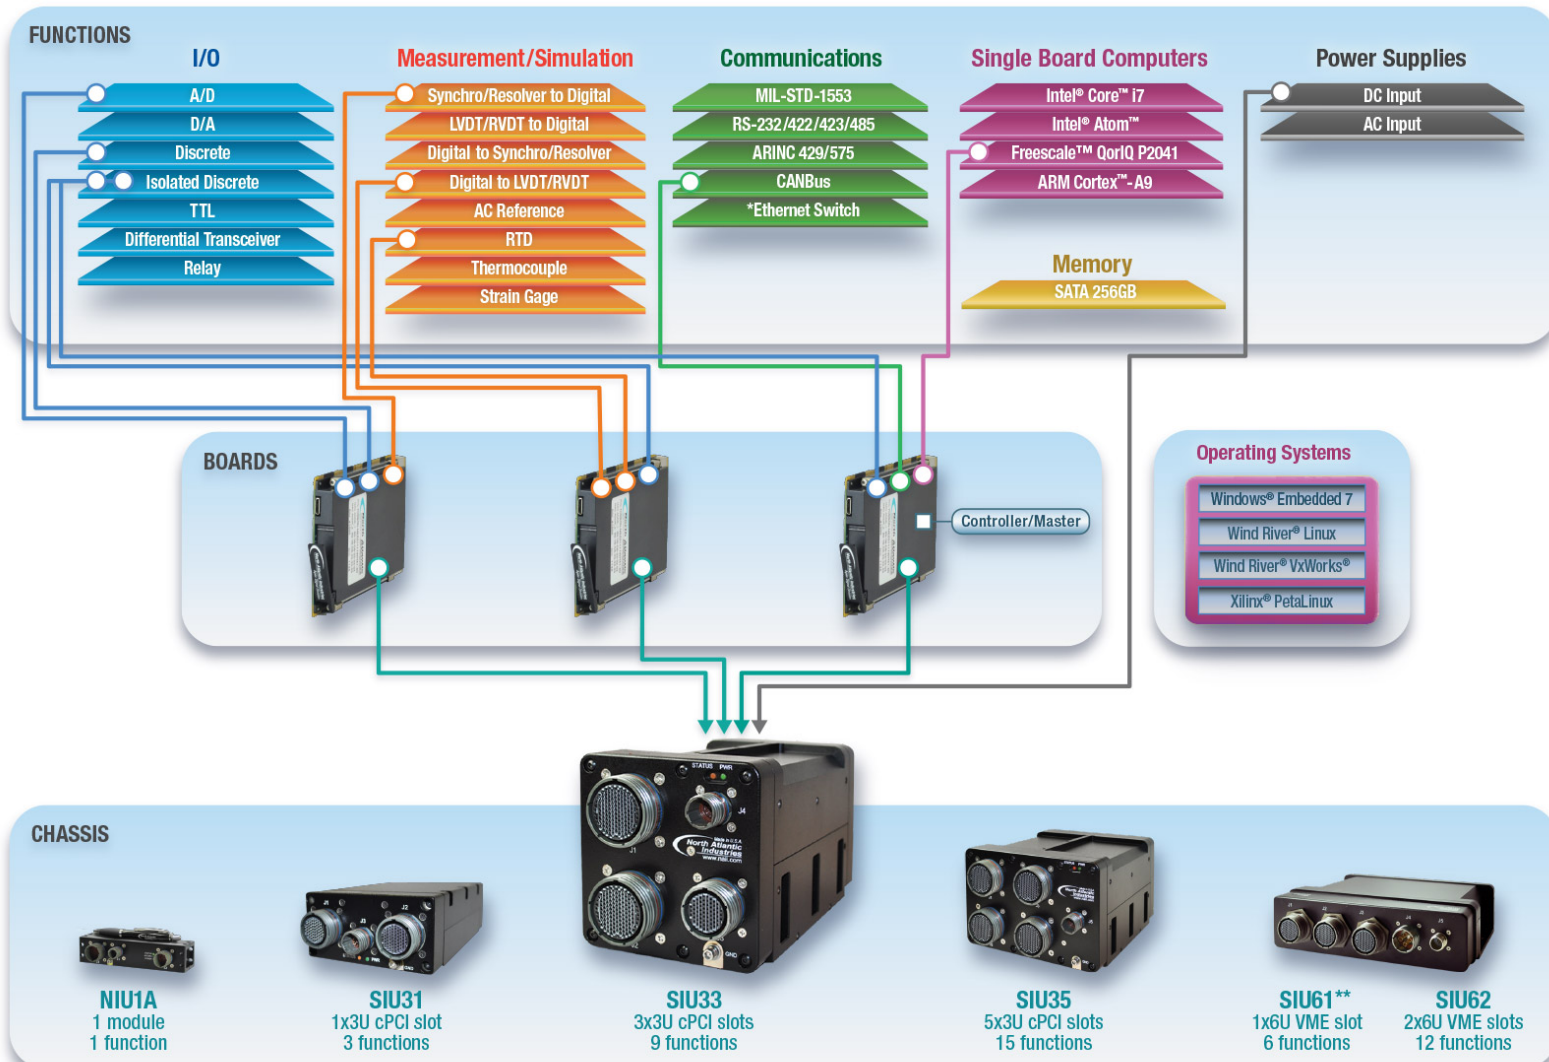

We believe there should be a more efficient approach to meeting the specs

NAI Custom-on-Standard Architecture™ (COSA™)

Brings you the best of both worlds : Custom solutions from standard COTS components

Configure Boards & Systems Easily for a Complete COTS Solution

Pre-existing, fully tested functions can be combined in an unlimited number of ways.

* Occupies 2 module slots

** Model not shown

Advantage: Configured to Customize

- Eliminate the need to design a custom data acquisition system for most Sense & Response applications accelerates your time to mission
 - Exceptionally, versatile, configurable hardware enables faster system adaptation
 - Plug-and-play interoperability reduces integration risks
 - Improve SWaP footprint
 - Lower acquisition costs

COSA: Smarter, Faster, Smaller

Advantage: Architected for Versatility

- A highly adaptive architecture that accelerates your time-to-mission with:
 - Broadest range of applications
 - Programmable I/O modules
 - Extended lifecycle support
 - Field-proven reliability

COSA: Turnkey systems for data acquisition, distribution and processing

■ — Advantage: One Source Efficiencies

- From design to manufacturing and final testing, NAI is optimized to accelerate your time-to-mission
 - State-of-the-art design, manufacturing and verification from one trusted source
 - Pre-integrated, field-proven components lower program risk
 - Reduced logistics and support costs
 - ISO 9001:2008 & AS9100:2009 certified

Meet demanding requirements faster, with less program risk.
